Answered: 87 Skipped: 75

Mountain Bike Trail Addition Maywood Park

#	RESPONSES	DATE
1	Its under-utilized space. Take a look at Quarry park or Cam Rock - these are well used and well maintained by the MTB community - I would love to be part of maintaining and using a trail so close to home!	2/25/2021 4:14 PM
2	This would be so helpful! I have two kids that would use it at least weekly and we could really use more options for preteens/teens in the area.	2/25/2021 1:37 PM
3	Question. Did this project idea originate with a few local residents? Who would pay for it and do the work ?	2/25/2021 1:21 PM
4	This would be a great recreational addition to Monona's park system.	2/25/2021 8:11 AM
5	It would be great to have a single track park to bike to, no driving necessary. It would encourage younger kids to bike as well as adults. I suggest a roly track, that keeps momentum verse the obstacles. Dolly tracks are easy and fun. I am all in the park addition.	2/24/2021 6:03 PM
6	I would support it if the design was changed so the ramp is in the way back of the park not on the street side right in front of our house. Too close to the playground too. The playground is heavily used with lots of toddlers and a great asset... the trail is fine in the woods but I would oppose it coming off the parking lot in that direction. It could easily be changed to come off the parking lot toward the north end and following it that way . The long wooden ramp could go way back where no houses are	2/24/2021 5:15 PM
7	I believe this would be a popular spot for kids mountain biking. Right now one has to go to CamRock or Quarry Park for something similar. My only concern is accessing the Park from Winnequah Road. Most of us would be biking there with our kids. From the north/west, it's down a large hill and then turning into the parking lot against traffic that has just begun to accelerate after a stop sign. I have not great ideas how to calm the traffic there, it's just a concern because Winnequah Road is busy. Thanks, I hope this is approved.	2/24/2021 1:45 PM
8	Given the location of the proposed trail I think this would be a good addition to Monona. We do a lot of mountain biking and I've never heard of any "noise problems" as a result of a trail. We've found the mountain biking community to be extremely friendly and kind. Also, given the size of the proposed trail this would be geared more towards a younger audience instead of advanced mountain bikers. I really don't see any issue with environmental damage either. All of the mountain bike trails we've been on have been incorporated into the natural landscape. It's a great way for people to be in nature!	2/24/2021 12:05 PM
9	I think it is a great use of underutilized park land that would provide youth a valuable recreation opportunity in their community that is needed.	2/24/2021 9:18 AM
10	I would like to hear more details related to how many trees might need to be cleared that otherwise wouldn't need to be.	2/23/2021 7:23 PM
11	Great idea!!	2/22/2021 7:22 PM
12	It would be good if this bike park can be linked up to other bike infrastructure around Monona. Having dedicated bike lanes to get to and from Maywood by various street routes would help. If it is possible to string together some singeltrack sections connecting Maywood with other neighborhood parks that would be super. It seems like it would be possible to create a route to connect Maywood park going through the Nuestro Muendo School grounds and the Library grounds to link up with Winnequah park. This would allow kids to easily navigate between the these destinations using offroad trails with minimal exposure to car traffic. The city could then also develop an offroad bike loop in Winnequah Park to add some more distance to the big loop, and provide another biking venue for kids that is safe from cars. Also the Maywood and Winnequah bike parks should be linked up as part of the greater Madison Bike Adventure Trail (MadBAT) project that is seeking to create a network of off road bike paths throughout the greater metro area.	2/22/2021 3:07 PM
13	I think it would be really cool and fun to put a mountain bike trail there and I think I would use it a lot and it sounds great	2/22/2021 9:43 AM
14	It would be an great place to help people progress in moutain biking and get people in to the sport and still leaves plenty of space for other activities.	2/22/2021 9:20 AM
15	Totally love this idea! My son would definitely bike over and check it out. I also like the idea of adding a disc golf course. Thanks for working on this.	2/22/2021 9:05 AM

Mountain Bike Trail Addition Maywood Park

16	I would support it if I could know that effort was taken to see how it would impact the wildlife who make their home in the park and use it to nest, forage, find prey, etc.	2/21/2021 7:49 PM
17	We've always wondered why so much of Maywood Park feels underutilized. Putting mountain bike trails in there seems like a great way to encourage outdoor activity particularly for the preteen and teen set (and adults too!).	2/21/2021 6:51 PM
18	Design with turns and obstacles to keep the speed down. Fat tire bikes would use it in the winter so it would have year round benefits. A gate at the start that that could be closed when trail conditions are muddy. A donation box or A sign with instructions n how to donate could be placed at the start of the course to cover some of the cost.	2/21/2021 6:04 PM
19	Provides a wonderful local recreation activity that we should have in our community.	2/21/2021 6:00 PM
20	clicked "no" for 12 but would have liked to have picked "it depends" We got to maywood multiple times per week in fair weather and get there by foot or regular bike or scooter Overall the idea sounds good that the boys have put together BUT: -it's important to keep this as a neighborhood amenity for monona residents as we are the taxpayers; parking should not be added; it's a bike trail; everyone in Monona should be able to get there by bike with a friend here or there meeting a neighbor -we need to be considerate of people's homes who are there; for example, people setting up and putting on loud music like happens at the skate park is unacceptable for homeowners who deserve peace. Ordinances should be added to honor this and signage about park community guidelines and enforceable ordinances -we need to keep this park accessible to toddlers and small children and their families as that is the primary use at this time; more traffic, noise, big kids and grown ups taking over and making it busy doesn't work. If it's just the kids or other homeowners in the neighborhood biking around, that sounds great.	2/21/2021 5:57 PM
21	I think it's a nice idea and a it's a creative use of what is probably an underutilized park. However, I have a few concerns. Is the proposed trail long enough for use by average mountain bikers? Is the proposed trail aimed at beginners or kids? What would trail cost to create and what about maintenance? Mountain bike trails, especially ones with technical elements, need to be maintained for safety and other reasons. Is it possible to partner with an organization like Capital Off Road Pathfinders? I believe they maintain other trails in Dane County. Also, is it possible to make the trail longer use the parameter of the park?	2/21/2021 1:28 PM
22	Maywood Road is already highly congested in the summer with vehicles and bicyclers in addition to the road being the main bypass for the Police and Fire Departments. Some of us who live on this road are already fearful of accidents because of the high rate of speed witnessed by most drivers. Couple that with a group of young kids (who appear to be the target market for this proposal) exiting the park and on to the surrounding roads and that is a recipe for disaster. Not to mention the noise which would further disrupt the environmental habitat. We don't need any more traffic in this small area.	2/21/2021 10:09 AM
23	Too small of a space	2/20/2021 7:12 PM
24	Sean Gere, the tree guy, says that big trucks in the park will harm the health of the big trees.	2/20/2021 5:53 PM
25	Monona keeps adding park improvements and neglects older existing facilities. There appears to be no control over parks expenditures. ie most project come in at a cost well over estimates. The future cost of properly maintaining all the new parks project built over the last 5 year will become a burden to the taxpayers.	2/20/2021 2:37 PM
26	Having outdoor activities available makes the neighborhood healthier	2/20/2021 1:16 PM
27	Additional concerns are: Additional noise pollution, additional parking concerns, littering.	2/20/2021 12:58 PM
28	I strongly think that Monona on the parks and rec should re do all the basketball courts monona because most most of them are to old and you can't even play on the because the hoop is broken or the ground is all mashed up.	2/20/2021 12:17 PM
29	Concerns: Increased use of park will ruin the natural aspect. Increase in damages to overall beauty of park. Litter. Riding off the trail will cause other damages. Trail looks too short to make it a big enough draw to make it worth the money. Costs to keep the trail useable and maintained.	2/20/2021 12:07 PM
30	We sure hope you get permission It would be fun. Our family likes biking and would like to go mountain biking some time.	2/20/2021 11:24 AM

Mountain Bike Trail Addition Maywood Park

31	The more options kids have access to the better. It seems like a small investment for a big return.	2/20/2021 11:11 AM
32	I live near Maywood Park. I use and enjoy Maywood Park because it's quiet, and full of birds and other wildlife. I find value in the solitude that this particular park provides, with its large trees, many birds, and its wide, uninterrupted space - that would be lost with a bike trail cutting through the green space and the park. The potential for noise pollution generated by bikes riding over the wooden roller and dismounting skinnies and tabletops is also very concerning. I think a more appropriate area for a bike track would be near the City's core recreational facilities- the pool and skate park/Winnequah.	2/20/2021 10:55 AM
33	Make work project in a park with no hills and about two acres in size. Who comes up with these silly ideas? How about reducing recreation staff size instead of reacting to the silly idea of a mountain bike trail on flat land in a small area.	2/20/2021 10:34 AM
34	The east side has no mountain bike trails to speak of. Everyone has to get in their cars to drive west or out to Camden. West side has high school teams forming too. It would be great to get kids started on this fun habit right in our own neighborhood.	2/20/2021 10:18 AM
35	Too much traffic already on the roads with biking , walkers and joggers This will cause more traffic .	2/20/2021 9:35 AM
36	I think this is a great idea, and fully support a mountain bike trail in Maywood Park.	2/20/2021 8:47 AM
37	I enthusiastically support a mountain bike trail at Maywood Park !!!!! There are very few mountain bike opportunities in the Madison area- this would be something Monona could be proud of. The cost is minimal, and the benefits are huge !!! Please go through with this project.	2/20/2021 8:16 AM
38	I think this is a great project for Maywood Park. While I wouldn't be a user, I think the city should provide this activity for others. I applaud the young people for their creativity and tenacity in bringing this project to the City and its citizens	2/20/2021 8:12 AM
39	I appreciate the idea but I don't think this is something that will be used much. It would be a very short trail. It seems like something some number of kids might be interested in. Seems like something they might try once and then never do again. There are better things the city can do with \$5000, like put speed humps on winnequah road so kids can more safely access Maywood park in general.	2/20/2021 8:05 AM
40	My first thought was that the trail would be too short but the video sold it.	2/20/2021 7:56 AM
41	Love the idea! We love our Monona parks!	2/20/2021 7:56 AM
42	I would like to go mountain biking more often. I am almost 8 and I bike as much as I can. It would be so cool to bike to trails from my house.	2/20/2021 7:42 AM
43	I'd like to see them in other parks too! A lot of people do the lake loop, and I imagine a lot of them would enjoy mini "side rides" if they were convenient.	2/20/2021 7:30 AM
44	This is a forward thinking project that could benefit citizens as well as businesses. It supports are Monona culture.	2/20/2021 7:21 AM
45	Mountain bike rentals would make it easier for people to participate periodically since it can be pricey to buy a road bike and a mountain bike.	2/20/2021 6:53 AM
46	I would love to see this happen. My family and I would have trails we could bike to from home which would be great compared to driving to ride.	2/20/2021 6:46 AM
47	great idea!	2/20/2021 6:46 AM
48	I don't like the idea of this trail because people that use them won't watch for the kids that also use that space and will they actually stay in the trail? The tall shady trees is what makes that park special. I would prefer a walking patch or natural growth for that area. It is also too small for a decent trail.	2/20/2021 3:01 AM
49	This could be such an asset to our community! Please consider who your target audience is (based on length, I'd guess beginners/kids?) and offer opt in/opt out points for your more challenging trail features. Thank you for your advocacy and movement, and keep us informed of trailbuilding opportunities!	2/20/2021 2:23 AM
50	When I say I mountain bike daily I mean when the weather is nice out there was no option for	2/20/2021 1:53 AM

Mountain Bike Trail Addition Maywood Park

that on the survey so I thought you might wanna know

51	I prefer less wood and more clay trail features, but recommend involving our local IMBA chapter, CORP, to determine the best way to construct a safe trail which is easy to maintain. I think this is a great opportunity to introduce off-road riding to our neighborhood. The Madison area has a lot of park space, but is way behind in the mountain bike scene, as it takes a lot of influence, compromise, and communication to work with the environmental groups that guard these parks. Monona is fairly hemmed-in by busy roads, so safely getting kids (and adults) to recreational activities isn't always easy. Bike parks have become a very popular way to add exercise opportunities to a metropolitan area without altering the transportation structure or building expensive facilities (see Valmont Park in Boulder, CO). https://www.mtbr.com/threads/how-to-get-your-city-to-build-a-public-bike-park.1170754/	2/19/2021 11:40 PM
52	I was overjoyed to see Monona is considering putting in a mountain bike trail. My family and I have travelled quite a bit nationally and believe we are behind the times with mountain bike trail access. Would love to see trail options in other parks, especially those with hills. We are not excited about the roller options. I think Blackhawk ski club would be a good model for the city to look at when trying to put a great trail in a small space. Thank you!	2/19/2021 10:10 PM
53	We think having a mountain biking trail would be great. My kids always want to ride bikes there and take them on the trail but it's just not set up quite right for that. Having a real trail would be AWESOME!	2/19/2021 9:20 PM
54	My house backs up to maywood park. The back of maywood is so nice and Unspoiled I would want to ensure the path does not disrupt the natural elements of the park and not be too loud or disruptive. But we love walking through the park and think biking through it would be great if done right!	2/19/2021 3:21 PM
55	I am also concerned about the need for additional parking & damage to the park and woods.	2/19/2021 3:03 PM
56	Maywood Park is a relatively small park nestled within a residential area. Currently, Nuestro Mundo students are heavy users in their Physical Education classes (weather permitting) as well as families with children visiting the playground. At times, parking is already an issue. If a mountain bike trail is built in Monona, please consider a park that already has noisy uses, such as the park adjacent to the pool and skate board ramp. Finally, Maywood Park is prized as a peaceful, quiet place to find respite in a busy, noisy world. Can we not value and preserve a few quiet spaces?	2/19/2021 9:52 AM
57	The most desirable mountain bike areas are well tree'd areas; Trails cut through forest. It must be interesting to look at and experience. It needs to be fun and safe for all age levels of riders. One area our family has utilized in the past as a mountain bike area that was not designated, is the area behind fireman's park.	2/17/2021 8:44 PM
58	The mountain bike community is historically a very involved volunteering group. Putting that kind of attention in that park is a win win. So much of that property is underutilized and frankly the wooded section needs attention. I know the Slow Roll crew has been doing this kind of work all over town. It would be a great stop on the lake loop too.	2/17/2021 7:46 PM
59	A mountain bike trail would be a wonderful asset!	2/17/2021 8:46 AM
60	I'm an avid cyclist and find all forms of cycling fun, but especially mountain biking. Having a trail close to home would be a great way to expose more people around town to the sport that might not otherwise be able to get to area trails.	2/17/2021 8:40 AM
61	I think adding a mountain bike trail on Monona would be great. And possibly adding more mountain bike trails in other parks. Adding trails will build upon what other local communities are doing to get people of multiple age groups outdoors.	2/16/2021 12:53 PM
62	Devolop trail system through Firemen's and Winnequah park. Put a pump track in.	2/16/2021 9:05 AM
63	I think a mountain bike trail would be a fantastic addition to Maywood Park! One of the lures of Monona is its wide range of parks and their uses and I think this would definitely add to it!	2/16/2021 7:32 AM
64	Difficult to imagine enough space/length to develop a trail. Who would be in charge of maintenance?Who would enforce park hours/trespassing after hours?	2/15/2021 10:30 PM
65	This would be a wonderful asset to our community. I know my kids would use it!	2/15/2021 9:04 PM
66	NA	2/15/2021 8:53 PM

Mountain Bike Trail Addition Maywood Park

67	This would be an amazing addition to Monona.	2/15/2021 8:29 PM
68	Maintenance expense, additional bike traffic on Winnequah if this becomes a destination attraction.	2/15/2021 8:11 PM
69	I am not a mountain biker but I think it would be a great asset for the community.	2/15/2021 8:00 PM
70	I love it! I live a couple of blocks away and utilize the park often. Love the addition to expand the utilization of this park.	2/15/2021 5:46 PM
71	Winnequah is already overloaded with bikers/walkers/runners on the road and seems like we can't control that. This will bring in more traffic.	2/15/2021 5:15 PM
72	It would be a good addition to that park!	2/15/2021 5:02 PM
73	Love the idea!	2/15/2021 4:33 PM
74	I don't feel strongly about this addition but I wonder if near Fireman's park would be better (the green space at 43.06609549765567, -89.34174813469008). There's more parking and it's also closer to the elementary school and skate park. That's probably the audience that would use a mtn bike trail the most. As for Maywood park, the current park offerings are geared toward younger children or adults using the walking path, picnic area, or green space. If more traffic is attracted to the park, parking may be a constraint. I listed above some uses that might get disrupted if this is added. My chief two requests if this project moves forward would be: 1. A bridge over the storm drain 2. Ensuring the trail is usable by younger kids (i.e. not just for experienced riders) Thanks for reading.	2/15/2021 4:23 PM
75	Mini disk course would be awesome in one of our parks	2/15/2021 4:21 PM
76	None	2/15/2021 4:18 PM
77	I think the wide open space of that park is a huge asset. I also see the litter and grafitti and the sometimes rough crowd that gathers at our skate park. I worry the bike trail would attract more of that to a pretty quiet residential area.	2/15/2021 3:59 PM
78	Good idea. This is an underutilized park.	2/15/2021 3:50 PM
79	Be bold and make it a regional destination!	2/15/2021 3:45 PM
80	This is a great idea. There aren't enough mountain biking trails around Madison/Monona!	2/15/2021 3:44 PM
81	I think this is awesome idea and would be a great use of the space at Maywood Park.	2/15/2021 3:31 PM
82	YES! This is a fantastic idea. My entire family would enjoy this as a recreation option in Monona. Right now we drive out to Camrock, Quarry Ridge, or Blackhawk. One in our backyard would be amazing! I support this 100%!	2/15/2021 3:22 PM
83	\$750,000 at Stone Bridge. Outdoor ice rink that's underutilized. Stop the insanity.	2/15/2021 3:18 PM
84	Our family is new to Monona, having moved here from the east side of Madison last June, so we have only used Maywood Park a little bit, mostly for sledding and taking walks. That said, we do enjoy beginner level mountain biking, especially considering limitations under COVID, as a way to spend time in nature and get exercise. We also enjoy bicycling around the lake, and feel like the bike paths are one of Monona's greatest assets, next to the lake. Hence, if a mountain bike trail can be added to Maywood Park in a way that is safe and environmentally friendly (i.e., with guidelines for sanitation to ensure that bikes are not spreading invasive plants, and not allowed during wet / sloppy conditions when trails would get torn up), we strongly support this recreational enhancement for our community.	2/15/2021 3:08 PM
85	Mountain bike trail would add great fun to Maywood Park	2/15/2021 2:57 PM
86	I am an avid mountain biker in Monona, WI on Gateway Green. I would really appreciate having a local trail both so I could get out an enjoy and also to make them more accessible for our neighbors. The nearest trails to Monona unfortunately require driving and having this in Monona proper would allow for more people to enjoy the outdoors.	2/15/2021 2:54 PM
87	I think this a great way to introduce a new sport to the community. We visited Bentonville, Arkansas this summer and their mountain biking trails/parks/playgrounds suited all biking levels and were so fun.	2/15/2021 2:53 PM
